Step 13

In the third and last `section` element, you are going to create the same HTML structure as you did in the preceding section.

First, inside the last section, add an `h2` element with the text `Importance of Building a Reputation`.

Then, below the `h2` element, add a block quotation element with a `cite` attribute set to `https://www.freecodecamp.org/news/learn-to-code-book/`.

Lastly, nest three paragraph elements inside the block quotation element with the following texts, in order:

- Share short video demos of your projects.
- Keep applying to speak at bigger and bigger conferences.
- Hang out at hackerspaces and help people who are even newer to coding than you.

Congratulations! With this you have finished this workshop.

```
30 <p>Create GitHub, Twitter,
31 LinkedIn, and Discord
32 accounts.</p>
33 <p>Go to tech meetups and
34 conferences. Travel if you
35 have to.</p>
36 </blockquote>
37 </section>
38 <section>
39 <h2>Importance of Building a
40 Reputation</h2>
41 <blockquote cite="https://www.
42 freecodecamp.org/news/
43 learn-to-code-book/"><p>Share short
44 video demos of your projects.</p>
45 <p>Keep applying to speak at bigger
46 and bigger conferences.</p>
47 <p>Hang out at hackerspaces and help
48 people who are even newer to coding
49 than you.</p>
50 </blockquote>
51 </section>
52 </main>
53 </body>
54 </html>
```

Select

Paste

Congratulations. Your code passes.

Importance of Networking

So much of getting a job is who you know.

It's OK to be an introvert, but you do need to push your boundaries.

Create GitHub, Twitter, LinkedIn, and Discord accounts.

Go to tech meetups and conferences. Travel if you have to.

Importance of Building a Reputation

Share short video demos of your projects.

Keep applying to speak at bigger and bigger conferences.

Hang out at hackerspaces and help people who are even newer to coding than you.
